Bulletin #12 of 2024. November 20, 2024 **NEW PRODUCT BULLETIN** P/N 510-750 SL 27® Head Cushion

Products Affected: P/N 500-040 and 500-041 SL 27® helmet

With the introduction of the new Low Volume Oral Nasal (LVON) as the standard for all Kirby Morgan helmets and BandMasks, the SL 27®s will now be sold with a new head cushion, P/N 510-750 SL 27® Head Cushion, that has the front part of the side foams trimmed off to better accommodate the new LVON.

The small section on the right of both side foams is now trimmed to better accommodate the new LVON.

The new SL 27® Head Cushion is the same head cushion bag and foam, with the trim already performed.

The P/N 525-746 Replacement Foam Kit for the P/N 510-754 Head Cushion will add directions for trimming the foam if you install new foam in a Head Cushion for the SL 27®.

Please contact your authorized KMDSI dealer or e-mail sales@kirbymorgan.com for more information.
