**Bulletin #5 of 2026. June 5, 2026**

## **CHANGE TO PRODUCT BULLETIN**

### **New Stainless Steel Bent Tube Replaces Chromed Brass & KM Diamond Bent Tube Modified Surface Finish**

**Products Affected:** All current KMDSI helmets and BandMasks®.

The new Stainless Steel Bent Tube, P/Ns 555-079 Bent Tube Assembly Stainless Steel, No O-rings and 555-080 Bent Tube Assembly Stainless Steel with O-rings, will become standard for all current KMDSI helmets and BandMasks® models EXCEPT the KM Diamond. As chromed brass stock diminishes, we will start shifting to stainless steel.

The modification enhances structural durability, corrosion resistance, and overall lifespan.

*The current stainless steel bent tube (left) and the previous chromed brass bent tube (right).*

Due to a manufacturing process update, the P/N 555-074 KM Diamond Bent Tube now has a modified surface finish. Please note that the part number, specifications, and function remain unchanged.

No changes to the procedures for service and maintenance.

Always purchase your Kirby Morgan® products from an authorized Kirby Morgan® dealer. A list of all authorized Kirby Morgan® dealers is available on our website, [www.kirbymorgan.com/dealers](http://www.kirbymorgan.com/dealers).

Please contact your authorized KMDSI dealer or e-mail [sales@kirbymorgan.com](mailto:sales@kirbymorgan.com) for more information.
