**Bulletin #2 of 2017. October 6, 2017**

## **Discontinuation of Product Bulletin** **EXO-BR Full Face Mask Discontinued**

### **Products Affected (*Discontinued*):**

Part Number	Description
300-036	EXO-BR Mask, No Communications
300-037	EXO-BR with Communications Posts
300-038	EXO-BR with Communications, MWP

The EXO-BR (Balanced Regulator) Full Face Mask is last in a series of three models of EXO Masks produced by Kirby Morgan from 1987 to 2017. EXO Full Face Masks have provided support for professional divers throughout the world for many years.

However, after thirty years of EXO production, we find it necessary to discontinue the EXO-BR Full Face Mask (effective now).

*Above, the now obsolete EXO-BR.*

To discontinue the EXO-BR Mask was purely a business decision. It was not based on quality, performance, or any safety factors whatsoever involving the EXO-BR Mask.

Discontinuation of the mask was based on the fact that the tooling is very worn and out of date. Unfortunately, it is no longer cost effective to keep the tooling in working condition.

The EXO-BR manual and technical support will remain available. The manifold block will remain available.

However, availability for the EXO-BR Mask and its parts will be **LIMITED TO STOCK ON HAND!**

Please contact your KMDSI dealer or e-mail [sales@kirbymorgan.com](mailto:sales@kirbymorgan.com) for more information.

Or you may contact any authorized Kirby Morgan dealer for information. Here is the link to the "Dealers" page on our website: <http://www.kirbymorgan.com/dealers>
