**Bulletin 1 of 1999: Change to Product.
10 June, 1999**

Subject: Change of Yoke

Products Affected: Yokes for the SuperLite 17 A/B & MK 21 Helmets

DSI is replacing the existing fiberglass yoke, DSI Part Number 520-060, with a new molded, black, polyurethane yoke, **DSI Part Number 520-117** (no price change). This yoke will become standard equipment on all SuperLite 17 A/B & MK 21 helmets produced as of June 15, 1999.

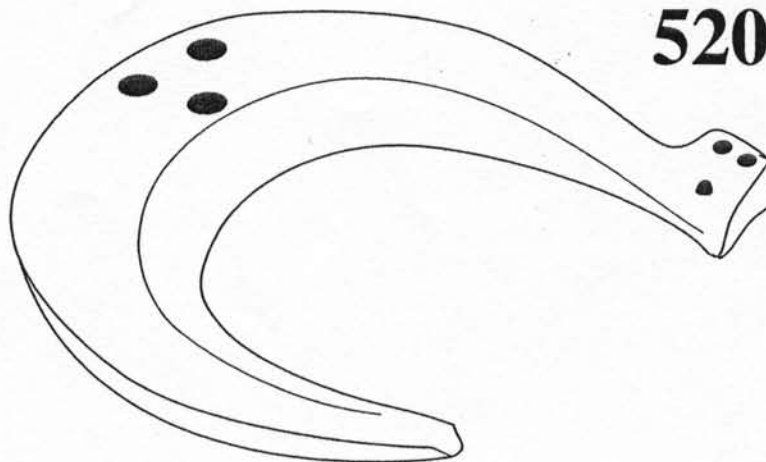

The new yoke is made of a durable black polyurethane, molded around a stainless steel core. It is fully interchangeable with the fiberglass unit it replaces and is readily retrofittable to all SL-17 A/B helmets. The polyurethane yoke is slightly heavier than the fiberglass. The fiberglass yoke will remain available as a **special order** spare part.

Old Part Number

520-060

New Part Number

520-117

Note: There is no change of part number for the neckclamp / yoke assembly, 505-008 which is also now standard with the new black polyurethane yoke. No Price Change.
