Change to Product Bulletin No. 1 of 2004 January 23, 2004

Subject: Product Change to KMB 18 & 28 Band Mask Hoods

Products Affected: All KMB 18 & 28 Band Masks

In January, 2004, Kirby Morgan will begin shipping a newly designed Hood and Face Seal for all KMB Band Masks™. This new Hood is sold as a kit, **Part# 525-740**, which includes 2 lock nuts, part # **530-145**, one is used when installing the new Hood on a Mask with the new KMB Band Keepers® installed. The second is included as a spare.

This new hood fits on all older KMB 18 & 28 Band Masks™, whether or not Band Keepers™ are installed.

See your local Authorized KMDSI Dealer for price and delivery information.

Parts included in kit 525-740:

Part Number	Description	Quantity
530-145	Lock Nut	2
510-712	KMB Hood/Faceseal Assembly	1 (not sold separately)

and complete installation instructions.

Kirby Morgan strongly recommends that the new patent pending Band Keeper™ kit, Part #525-172, be installed on all Band Masks™. They not only prevent any separation of the Hood from the Mask but also make it impossible for the Bands to separate from the Mask.
