**Bulletin #6 of 2012. December 4, 2012**

**Change to Product Bulletin**

**P/N 560-300 Zinc Whisker Anodes and P/N 560-304 Zinc Sleeve Anode  
Installed on All Stainless Steel Helmets**

**Products Affected:** P/Ns 500-090/091 KM 77 helmets and P/Ns 500-100/101 KM 37SS helmets.

Effective immediately Kirby Morgan Dive Systems, Inc. is installing zinc anodes, P/N 560-300 Zinc Whisker Anode (x2) and P/N 560-304 Zinc Sleeve Anode, on all newly manufactured stainless steel helmets.

Zinc anodes are designed to minimize and reduce the corrosive effects of saltwater exposure and to help combat electrolysis when cutting/burning and welding.

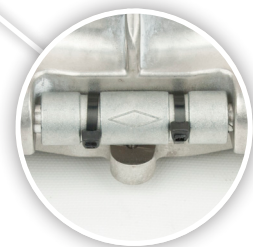

**WHISKER ANODE**

**KM 37SS**

**KM 77**

**SLEEVE ANODE**

*Above: Detail of the installed zinc anodes.*

If you require anodes for your stainless steel helmet, anode kits are available for purchase through your authorized Kirby Morgan dealer. Ask for P/N 525-375. There are anode kits available for all models of Kirby Morgan Helmets and Band Masks. Go to the model helmet/Band Mask on our website and click on "Spares Kits" for the correct part number and information.

**No price change at this time.**

*Please contact your local KMDSI dealer or e-mail sales@kirbymorgan.com for more information.*
