Product Bulletin - #14 of 2005 New Communications Box for KMACS & DCS Part Number 415-105

KMDSI has a new communicator that will be standard issue on all KMACS (Kirby Morgan Air Control Systems) and will back-fit all DCS-2 (Dive Control System-2) units still in service.

This new communicator is built to our specifications and offers better quality and performance. It provides the following features:

- Two diver communications
- Rechargeable Gel Cell batteries
- Weatherproof panel microphone
- Push-to-talk communications

This product is available now.
